SUMMARY

Data Science & Analytics professional with hands-on experience in machine learning, real-time data pipelines, statistical analysis, and dashboard development. Skilled in Python, SQL, and AI/ML tools with a strong foundation in data engineering and visualization. B.Tech AI & Data Science — GPA: **9.75/10**.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript (ES6+), TypeScript, Java, R (Basic), HTML5, CSS3

Data Science & ML: Supervised & Unsupervised Learning, Regression, Classification, Clustering, Decision Trees, Random Forests, Neural Networks, Feature Engineering, Model Evaluation (AUC, F1, RMSE), Cross-Validation

Libraries & Frameworks: NumPy, Pandas, scikit-learn, Matplotlib, Seaborn, TensorFlow (Basic), OpenCV (Basic)

Analytics & Visualization: Data Wrangling, EDA, Statistical Analysis, Dashboard Design, KPI Reporting, A/B Testing, Data Storytelling

Databases & Querying: MySQL, MongoDB, SQL Query Optimization, Indexing, Aggregation Pipelines, Schema Design

AI & LLM Tools: Prompt Engineering, LLM API Integration (OpenAI/Anthropic), Azure AI Services, GitHub Copilot, AI-assisted Analysis

Data Engineering: REST APIs, Real-Time Data Pipelines, Event-Driven Architecture, WebSockets, ETL Concepts

Tools & Platforms: Git, Docker (Basic), Postman, JIRA, Jupyter Notebook, Google Colab, Agile/Scrum, Excel

EXPERIENCE

Full Stack Developer Intern — Data & Dashboard Engineering

Sep 2025 – Present

Eric Robotics (Premier Seals Pvt Ltd), Pune

- Designed and deployed 6+ real-time data dashboards ingesting live sensor and operational streams, enabling data-driven monitoring across hardware and engineering teams
- Built dynamic configurable data visualization widgets with modular layout system, reducing analyst setup time and improving reporting efficiency
- Engineered real-time data pipelines with WebSocket-based state sync ensuring low-latency delivery and zero stale data across concurrent sessions
- Reduced dashboard UI lag by 25%** via query optimization, API request batching, and efficient data rendering strategies

Software Trainee — Frontend & API Integration

Mar 2025 – Jun 2025

Zest India IT Services, Pune

- Integrated RESTful data APIs with structured error handling, loading states, and edge case management for reliable data delivery to UI
- Improved application load time by 20%** through lazy loading, code splitting, and efficient data asset management

Software Intern — Product & UX Analytics

Jan 2024 – Feb 2024

Artiset, Pune

- Redesigned information architecture based on user flow analysis; **improved navigation efficiency by 30%**, directly informing core product data decisions

PROJECTS

- Real-Time Analytics Dashboard** (*Node.js, Express, MySQL, WebSockets*) — Live data ingestion pipeline with configurable KPI widgets, event-driven updates, and optimized SQL queries for sub-second reporting latency
- Predictive Monitoring System** (*React.js, Node.js, WebSockets*) — Real-time state tracking system with bidirectional data sync; architected for high-frequency time-series updates without data staleness
- Task & Workflow Analytics App** (*React.js, Node.js, MongoDB, JWT*) — Data-backed project management tool with RBAC, real-time updates, and indexed MongoDB collections for fast analytical queries
- Real-Time Data Stream App** (*Socket.io, React.js, Node.js*) — Full-duplex streaming pipeline with optimized event handling for high-concurrency data throughput and delivery receipts

EDUCATION

B.Tech – Artificial Intelligence & Data Science

2022 – 2026

Dr. D.Y. Patil School of Science and Technology, Pune

GPA: 9.75 / 10.0

CERTIFICATIONS

Machine Learning – Infosys Springboard | Data Science – IBM | Azure AI Fundamentals – Microsoft
