SUMMARY

AI/ML Engineer with hands-on experience deploying machine learning pipelines, real-time inference systems, and data-driven applications. Proficient in Python, scikit-learn, TensorFlow, and LLM API integration. Strong foundation in deep learning, NLP, computer vision, and statistical modeling. Built production systems handling live data streams and reduced latency by 25%. B.Tech AI & Data Science — GPA: **9.75/10**.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript (ES6+), TypeScript, Java, R (Basic), HTML5, CSS3
ML & Deep Learning: Supervised & Unsupervised Learning, Regression, Classification, Clustering, Decision Trees, Random Forests, Gradient Boosting (XGBoost, LightGBM), Neural Networks (ANN, CNN, RNN, LSTM), Backpropagation, Dropout, Batch Normalization
NLP & LLMs: Text Classification, Tokenization, Embeddings, Transformers, Prompt Engineering, LLM API Integration (OpenAI, Anthropic, Gemini), RAG (Retrieval-Augmented Generation), Fine-Tuning Concepts, LangChain (Basic)
Computer Vision: Image Classification, Object Detection, OpenCV, Feature Extraction, CNNs
Libraries & Frameworks: NumPy, Pandas, scikit-learn, TensorFlow, Keras, Matplotlib, Seaborn, NLTK
MLOps & Tools: Model Evaluation (AUC-ROC, F1, RMSE, Confusion Matrix), Cross-Validation, Hyperparameter Tuning, Feature Engineering, Data Augmentation, Jupyter Notebook, Google Colab, Azure AI Services, GitHub Copilot
Data Engineering: REST APIs, Real-Time Data Pipelines, ETL Concepts, MySQL, MongoDB, WebSockets, Event-Driven Architecture
Dev Tools: Git, Docker (Basic), Postman, JIRA, VS Code, Agile/Scrum

EXPERIENCE

Full Stack Developer Intern — AI Systems & Real-Time ML Pipelines **Sep 2025 – Present**
Eric Robotics (Premier Seals Pvt Ltd), Pune

- Architected 6+ production-grade real-time data dashboards integrating live sensor streams with ML-ready data pipelines for monitoring and predictive insight delivery
- Built intelligent drag-and-drop dashboard builder with dynamic model output visualization, enabling non-technical users to configure AI-assisted monitoring workflows
- Engineered low-latency robot state inference interface using WebSocket communication with backend validation logic to ensure safe, model-guided command execution
- **Reduced inference and UI lag by 25%** through optimized data rendering, request batching, and efficient real-time model output handling

Software Trainee — Data Integration & API Engineering **Mar 2025 – Jun 2025**
Zest India IT Services, Pune

- Integrated RESTful ML model APIs with structured error handling, fallback states, and edge case management ensuring reliable AI feature delivery to production UI
- **Improved application performance by 20%** through lazy loading, code splitting, and optimized data asset management

Software Intern — AI Product Design & User Flow Analytics **Jan 2024 – Feb 2024**
Artiset, Pune

- Analysed user interaction patterns and redesigned product workflows; **improved navigation efficiency by 30%**, contributing data-driven insights to early-stage AI product decisions

PROJECTS

- **Real-Time Predictive Analytics Dashboard** (*Python, Node.js, MySQL, WebSockets*) — End-to-end ML data pipeline with live KPI monitoring, configurable model output widgets, and sub-second SQL query latency for real-time prediction delivery
- **Intelligent Robot Control System** (*React.js, Node.js, WebSockets, REST APIs*) — Real-time inference state tracking with bidirectional sync; designed for high-frequency time-series model outputs without data staleness
- **AI-Powered Task Management System** (*React.js, Node.js, MongoDB, JWT*) — Collaborative platform with RBAC, drag-and-drop, and intelligent querying via indexed MongoDB collections for ML-backed workflow optimization
- **Real-Time NLP Chat Application** (*Socket.io, React.js, Node.js, LLM APIs*) — Full-duplex WebSocket messaging with LLM API integration for AI-assisted responses, optimized event handling for high-concurrency NLP throughput

EDUCATION

B.Tech – Artificial Intelligence & Data Science 2022 – 2026
Dr. D.Y. Patil School of Science and Technology, Pune **GPA: 9.75 / 10.0**

CERTIFICATIONS

Machine Learning – Infosys Springboard | Data Science – IBM | Azure AI Fundamentals – Microsoft
